On September 21, 2004, the Commission placed on public notice an application submitted by the Applicants seeking consent to the transfer of control of certain Intelsat FCC-licensed subsidiaries to Zeus ("Consolidated Application").² On November 6, 2004, the Applicants also responded by letter to a Commission request for additional information.³

At the time the Consolidated Application was placed on public notice, an application was pending before the Commission seeking Commission consent to the assignment of various non-common carrier earth station licenses from ComGen to Intelsat LLC (the "ComGen Transaction").⁴ Intelsat LLC is an indirect wholly-owned subsidiary of Intelsat (Bermuda), Ltd., which is in turn wholly-owned by Intelsat. On October 27, 2004, the Commission granted Intelsat authority to consummate the ComGen Transaction.⁵ Pursuant to this grant, ComGen assigned the following non-common carrier licenses to Intelsat LLC on October 29, 2004:⁶

Part 25: Earth Station Licenses: call signs E980015, E980016, E980019, E980217, E990303

In footnote 68 of the Consolidated Application, the Applicants indicated they would file a minor amendment to the Consolidated Application upon closing of the ComGen Transaction
